BUSINESS Computer Care

Call-out Maintenance Packages

Initial Assessment £34.95*

An initial assessment of your computer is needed so that we can ensure it is operating at its optimum

Assessment includes: coming to you, backing-up all of your files and data and optimizing your computer's performance. We also supply anti-virus software, anti spy-ware software and remote desktop support software all within the price of just £34.95. (A massive saving over the normal price that an engineer would charge – formats alone usually cost £80.00).
